

Infrastructure Projects in PPs, Asset Projects and Works for Taxes(Oxl) in Peru

How do we begin 2026?

Year-End 2025 Highlights

1

FINAL VERSION OF THE CONCESSION AGREEMENT FOR THE MEGAPROJECT OF HEADWORKS AND CONVEYANCE FOR THE SUPPLY OF DRINKING WATER TO LIMA PUBLISHED

The draft final version of the concession agreement for the Megaproject of Headworks and Conveyance for the Supply of Drinking Water to Lima was published. This strategic initiative aims to guarantee a sustainable water supply for more than 7.5 million inhabitants of the capital city. The project includes the construction of the Trans-Andean Conveyance Tunnel (approximately 10 km), the expansion of the Huachipa Drinking Water Treatment Plant, and the implementation of additional infrastructure for water intake, regulation, and transport, strengthening Lima's water resilience in the face of urban growth and climate change.

2

THIRD VERSION OF THE CONCESSION AGREEMENT FOR THE PROJECT "IMPROVEMENT OF PUBLIC TOURISM SERVICES AT THE CHOQUEQUIRAO ARCHAEOLOGICAL PARK" PUBLISHED

The Third Version of the Concession Agreement for the Project "Improvement of Public Tourism Services at the Choquequirao Archaeological Park" has been published. Bidders may submit comments and suggestions until February 11, 2026.

3

ANCÓN INDUSTRIAL PARK PROJECT AWARDED

On December 12, 2025, PROINVERSIÓN announced the award and commencement of execution of the Ancón Industrial Park, a strategic project for North Lima requiring an investment exceeding USD 1.2 billion. Conceived as the country's first "dry port," the project will cover more than 1,300 hectares, connect with Jorge Chávez International Airport and the ports of Chancay and Callao, and boost logistics and industrial activity. The project was awarded to the Junefield Ancón Industrial Park Consortium.

4

PUERTO MALDONADO WASTEWATER TREATMENT PLANT (WWTP) PROJECT AWARDED

The Puerto Maldonado Wastewater Treatment Plant (WWTP) project was awarded to the Puerto Maldonado Sanitation Consortium, composed of BTD Capital 12, S.L. and MOTA-ENGIL CAPITAL, S.A., together with MOTA-ENGIL PERÚ S.A.

The project, which will require an investment of over USD 150 million, will be executed under a 24-year concession scheme and includes the design, financing, construction, operation, and maintenance of the system, as well as the installation and rehabilitation of sewer networks and household connections. It will contribute to the environmental recovery of the Tambopata and Madre de Dios rivers and to improved public health in the city.

5

ADDENDUM NO. 5 TO THE MATARANI PORT TERMINAL CONCESSION AGREEMENT SIGNED

The Peruvian State executed Addendum No. 5 to the Matarani Port Terminal concession agreement, committing approximately USD 700 million in private investment to modernize and expand the port's operational capacity, consolidating it as a key logistics hub for southern Peru.

The agreement extends the concession for an additional 30 years, ensuring long-term operational continuity. It is expected to increase berth capacity by 25%, cargo handling by 50%, and significantly

4903-8693-2102, v. 1

6

expand mineral storage capacity, strengthening the port's role as a logistics platform for mining, agro-exports, fishing, and foreign trade. To access the Addendum No. 5 project, click [HERE](#).

ADDENDUM NO. 11 TO THE CONCESSION AGREEMENT OF THE FIRST GROUP OF PERUVIAN AIRPORTS SIGNED

The Government executed Addendum No. 11 to the concession agreement of the first group of regional airports operated by Aeropuertos del Perú (AdP). This addendum enables the modernization of twelve regional airports, including terminals in border zones and areas of high demand. Planned improvements include new boarding lounges, runways, parking areas, and upgraded airport services, accelerating investments to enhance regional airport infrastructure. For more information about the contract, click [HERE](#).

7

CHIMBOTE SPECIALIZED HOSPITAL PROJECT ENTERS FINAL TECHNICAL FILE STAGE

On November 24, 2025, official authorization was granted for the building height approval for the future Chimbote Specialized Hospital, part of EsSalud's Áncash Healthcare Network. This authorization is a mandatory regulatory requirement to ensure the viability of the architectural design and to move forward with completion of the project's technical file.

With this approval, the project enters the final validation stage prior to construction. The hospital will expand high-complexity healthcare services in Áncash and will include 161 hospital beds, 12 ICU beds, 7 operating rooms, 37 outpatient clinics, 2 delivery rooms, a progressively complex outpatient clinic, and temporary contingency infrastructure to ensure continuity of service during construction.

8

NEW INVESTMENT CEILING EXCEEDING PEN 66 BILLION FOR WORKS FOR TAXES (OxI) FOR REGIONAL AND LOCAL GOVERNMENTS IN 2026

The Executive Branch formalized a significant increase in the maximum CIPRL ceilings, raising by 50% the annual capacity of regional and local governments to commit resources through the Works for Taxes (OxI) mechanism. With this change, the consolidated ceiling rises to PEN 66.839 billion, substantially expanding the financial capacity of subnational entities to promote public investment projects in priority sectors such as health, education, transportation, sanitation, and public safety.

By Supreme Decree No. 252-2025-EF, the annual capacity of regional governments increases from PEN 21.722 billion to PEN 32.589 billion, and that of local governments from PEN 22.768 billion to PEN 34.250 billion. The largest increases are observed in regions such as Áncash, whose ceiling rises from PEN 317 million to PEN 1.841 billion (an increase of 481%), followed by Ica (234%), Piura (189%), and Huancavelica (145%). For further information regarding the Decree, click [HERE](#).

9

PROINVERSIÓN TO PROMOTE THE EXECUTION OF 15 KEY ADDENDA TO STRENGTHEN PPP PROJECT IMPLEMENTATION

PROINVERSIÓN plans to execute and manage 15 priority addenda in Public-Private Partnership projects, representing approximately USD 15.8 billion in additional investment commitments.

Among the prioritized addenda are the expansion of Torre Trecca and contractual adjustments in the Salog and Cálidda projects. Progress is also expected on addenda for the Second Group of Airports, Lima Metro Line 1, Road Network No. 6, the Callao Transporter, and contractual modifications to the Natural Gas Pipeline Transportation System, all aimed at improving operational capacity and accelerating large-scale investments.

Two of these addenda are scheduled for the first quarter of 2026: the Salog (EsSalud) addendum, aimed at optimizing logistics and support services with an estimated commitment of USD 133 million, and the Cálidda (MINEM) addendum, which will adapt natural gas distribution infrastructure with a projected investment of USD 643 million.

Transaction Phase

Drinking Water and Sanitation

HEADWORKS AND CONVEYANCE WORKS PROJECT FOR THE SUPPLY OF DRINKING WATER TO LIMA

Investment Amount (excluding VAT): USD 486.26 million

Modality: Self-financed State Initiative

The ODCC Project is a self-financed state initiative currently in the transaction phase, aimed at expanding the availability of potable water in Metropolitan Lima. Its first phase involves an estimated investment of USD 480 million and will benefit 1.5 million residents in districts such as Pachacámac (Manchay), Cieneguilla, Ate, Santa Anita, and La Molina. This phase includes the design, financing, construction, operation, and maintenance of the Huachipa II Treatment Plant (2 stages of 2.5 m³/s), the Southern Branch up to Manchay with 5 reservoirs, as well as the operation of the Huachipa Intake and Huachipa I Plant. The final version of the contract is scheduled to be published on December 15, 2025.

WASTEWATER TREATMENT FOR FINAL DISPOSAL OR REUSE FOR THE CITY OF CAJAMARCA

Investment Amount (excluding VAT): USD 283 million

Modality: Co-financed Private Initiative

It includes the design, financing, construction, operation, and maintenance of a wastewater treatment plant with an average capacity of 592 L/s, as well as 18 km of collector sewers and a 1.5 km outfall to the Cajamarquino River. The project will benefit the city of Cajamarca and three localities in the Baños del Inca District (Tartar Grande, Bajo Otuzco, and Cerrillo), improving public health, environmental conditions, and quality of life for more than 365,000 people. With a 26-year concession term, it constitutes a high-impact, sustainable investment.

Real Estate Assets

Estimated Award (tentative):
I Quarter 2026

Direct Award (estimated)*:
II Quarter 2026

* If third-party interested parties
are present. the award will be made

Estimated Award (tentative):
II Quarter 2026

OPERATION AND MAINTENANCE OF THE LIMA CONVENTION CENTER

OPEX: USD 88.26 million

Modality: Co-financed State Initiative

Comprehensive operation, management, preservation, and maintenance of the Lima Convention Center. PROINVERSIÓN is currently preparing the bidding process documentation.

For more information about the Project, click [HERE](#).

Health

Estimated Award (tentative):
I Quarter 2026

MANAGEMENT OF THE NATIONAL CHILDREN'S HEALTH INSTITUTE – SAN BORJA

Investment amount (excluding VAT): S/ 3,869.98 million

Modality: Co-financed State Initiative.

The project consists of the comprehensive management of the operation and maintenance of the infrastructure and equipment of the National Institute of Child Health in San Borja, as well as the provision of other gray coat services and two green coat services:

-Grey coat: Food service, linen and laundry management service, cleaning, sanitation and vector control service, comprehensive security and surveillance service, comprehensive solid waste management service, Incident Management Information System (SIGI)

-Green coat: Sterilization service and clinical pathology service

The first two years of the 17-year contract term include activities to get the Institute's infrastructure and equipment up and running.

The project already has the following prequalified bidders:

- Concesionaria de Proyectos de Infraestructura Sucursal del Perú
- Ibérica de Mantenimiento S.A. Peru Branch
- IBT Health, Llc
- Ortiz Construcciones y Proyectos S.A. Peru Branch
- Promotora y Desarrolladora Mexicana de Infraestructura S.A. de C. V. (Proinfra)

Tourism and Culture

Estimated Award (tentative):
II Quarter 2026

IMPROVEMENT OF PUBLIC TOURISM SERVICES AT THE CHOQUEQUIRAO ARCHAEOLOGICAL PARK

Investment Amount (excluding VAT): USD 260.90 million

Modality: Co-financed State Initiative

The main objective of the project is to improve the provision of public tourism services at the Choquequirao Archaeological Monument (MACH) through the implementation of a cable transportation system that facilitates access to the site and enhances the visitor experience. This initiative seeks to overcome the current access limitations that restrict visits to the archaeological park, representing a missed opportunity to leverage a valuable tourism asset that could strengthen and consolidate the tourism offering at both the regional and national levels.

The project contemplates the construction of a cable car (aerial tramway) system, consisting of two sections in the Northern Zone and one section in the Southern Zone, in order to improve tourist access to the Choquequirao Archaeological Monument.

The third version of the Concession Agreement has already been published, and bidders have until February 11, 2026, to submit their comments.

Structuring Phase

Drinking Water and Sanitation

EXPANSION AND IMPROVEMENT OF WASTEWATER COLLECTION, TREATMENT, AND DISPOSAL SERVICES IN THE LOCALITIES OF HUANCAYO, EL TAMBO, CHILCA, HUAYUCACHI, HUANCÁN, HUACRAPUQUIO, AND VIQUES, PROVINCE OF HUANCAYO, DEPARTMENT OF JUNÍN

Investment Amount (excluding VAT): USD 229.11 million

Modality: Co-financed Private Initiative

The project includes the construction of a wastewater treatment plant (WWTP), primary and secondary sewer collectors, and eight (8) wastewater pumping stations (WWPS), together with their respective force mains.

For more information about the Project, click [HERE](#).

WASTEWATER TREATMENT FOR FINAL DISPOSAL OR REUSE – CUSCO PROVINCE

Investment Amount (excluding VAT): USD 51.60 million

Modality: Co-financed Private Initiative

Expansion of the primary conveyance capacity (interceptor) and wastewater treatment capacity of the existing infrastructure (San Jerónimo Wastewater Treatment Plant – WWTP).

For more information about the Project, click [HERE](#).

DRINKING WATER SUPPLY THROUGH SEAWATER DESALINATION IN THE URBAN AREA OF THE PROVINCE OF ILO, MOQUEGUA

Investment Amount (excluding VAT): USD 110.00 million

Modality: Co-financed Private Initiative

The project contemplates the upgrade and expansion of the Pampa Inalámbrica Drinking Water Treatment Plant (DWTP), the construction of a seawater desalination plant for drinking water supply, and the improvement of the surface water production system.

For more information about the Project, click [HERE](#).

WASTEWATER TREATMENT PLANT PROJECT FOR THE CITIES OF TARAPOTO AND SAN JOSÉ DE SISA – SAN MARTÍN REGION

Investment Amount (excluding VAT): USD 143.11 million

Modality: Co-financed Private Initiative

The project includes the design, financing, construction, operation, and maintenance of interceptors, pumping stations, wastewater treatment plants (WWTPs), and discharge outfalls for the cities of Tarapoto and San José de Sisa.

Direct Award (estimated)*:
I Quarter 2026

WASTEWATER TREATMENT FOR FINAL DISPOSAL OR REUSE – TRUJILLO AND CHEPÉN PROVINCES, LA LIBERTAD, PERU

Investment Amount (excluding VAT): USD 425.08 million
Modality: Co-financed Private Initiative

The project includes the design, financing, construction, operation, and maintenance of primary sewer collectors, wastewater pumping stations, force mains, sewer outfalls, wastewater treatment plants (WWTPs), and discharge outfalls for the cities of Trujillo and Chepén in the Department of La Libertad.

For more information about the Project, click [HERE](#).

Ports and Inland Waterways

CHIMBOTE INTERNATIONAL TERMINAL

Investment Amount (excluding VAT): USD 273.45 million
Modality: Self-financed Private Initiative

The project includes the design, financing, execution of investments, preservation, operation, and transfer of the assets comprising the new multipurpose port terminal at the Port of Chimbote.

For more information about the Project, click [HERE](#).

NEW PORT TERMINALS IN LORETO (SARAMIZA AND IQUITOS)

Investment Amount (excluding VAT): USD 140.94 million
Modality: Co-financed Private Initiative

The project includes the construction of two (2) port terminals located in the provinces of Maynas and Datem in the Department of Loreto. The project aims to provide adequate port services for cargo and long-distance vessels in the city of Iquitos.

For more information about the Project, click [HERE](#).

Health

NEW CENTRAL MILITARY HOSPITAL

Investment Amount (excluding VAT): USD 442.00 million
Modality: Co-financed Private Initiative

The project seeks to design, construct, maintain, and operate the Central Military Hospital, providing members of the Peruvian Army with a state-of-the-art hospital facility.

For more information about the Project, click [HERE](#).

INTEGRATED SOLID WASTE MANAGEMENT IN HEALTHCARE FACILITIES OF THE MINISTRY OF HEALTH IN METROPOLITAN LIMA

Investment Amount (excluding VAT): USD 131.24 million
Modality: Co-financed Private Initiative

Direct Award (estimated)*:
II Quarter 2026

* If third-party interested parties are present, the award will be made through a competitive bidding process.

Direct Award (estimated)*:
II Quarter 2026

* If third-party interested parties are present, the award will be made through a competitive bidding process.

Direct Award (estimated)*:
I Quarter 2027

* If third-party interested parties are present, the award will be made through a competitive bidding process.

This private initiative aims to provide conditioning, segregation, storage, transportation, treatment, and disposal services for solid waste generated by 387 healthcare facilities of the Ministry of Health (MINSA) in Metropolitan Lima. It includes the construction, operation, and maintenance of facilities for the treatment of bio-contaminated and special solid waste.

For more information about the Project, click [HERE](#).

OPERATION AND MAINTENANCE OF THE SULLANA II-2 SUPPORT HOSPITAL

Investment Amount (excluding VAT): To be determined

Modality: Co-financed State Initiative

The project focuses on the operation and maintenance of the Sullana II-2 Support Hospital, including the replacement of clinical and non-clinical equipment, as well as the management of “grey coat” services. These services include linen and laundry, food services, security and surveillance, integrated solid waste management, sterilization, and logistics for supplies and furniture.

In addition, “green coat” services will be provided, including clinical laboratory services, diagnostic imaging, and a renal unit. The project operator will be responsible for the replacement of the required equipment and the management of the aforementioned services. PROINVERSIÓN will also oversee the selection of the operator within the framework of the Public-Private Partnership (PPP) contract.

For more information about the Project, click [HERE](#).

Education

CONSTRUCTION OF NEW EDUCATIONAL INFRASTRUCTURE FOR AT-RISK SCHOOLS IN METROPOLITAN LIMA

Investment Amount (excluding VAT): USD 301.53 million

Modality: Co-financed Private Initiative

The project involves the replacement of educational infrastructure, the provision of equipment, and the maintenance of thirteen (13) public schools located in the districts of Villa El Salvador and San Juan de Miraflores.

For more information about the Project, click [HERE](#).

CONSTRUCTION, IMPLEMENTATION, MAINTENANCE, AND OPERATION OF COMPLEMENTARY SERVICES FOR PUBLIC EDUCATIONAL INSTITUTIONS IN VILLA MARÍA DEL TRIUNFO BELONGING TO UGEL 01, LOCATED ON SANITIZED LANDS OF THE MINISTRY OF EDUCATION

Investment Amount (excluding VAT): USD 70.33 million

Modality: Co-financed Private Initiative

The project involves the construction, implementation, maintenance, and operation of complementary services supporting educational management for five (5) at-risk public schools in the district of Villa María del Triunfo.

For more information about the Project, click [HERE](#).

Direct Award (estimated)*:
I Quarter 2027

* If third-party interested parties are present, the award will be made through a competitive bidding process.

INTERVENTION IN AT-RISK SCHOOLS IDENTIFIED BY THE MINISTRY OF EDUCATION IN ATE AND SAN JUAN DE LURIGANCHO

Investment Amount (excluding VAT): USD 142.21 million
Modality: Co-financed Private Initiative

The project includes the construction and equipping, the operation of complementary services, and the maintenance of infrastructure, furniture, and equipment for fourteen (14) educational institutions located in the districts of Ate (5) and San Juan de Lurigancho (9).

For more information about the Project, click [HERE](#).

INTERVENTION IN AT-RISK SCHOOLS IDENTIFIED BY THE MINISTRY OF EDUCATION IN COMAS AND SAN MARTÍN DE PORRES

Investment Amount (excluding VAT): USD 92.28 million
Modality: Co-financed Private Initiative

The project involves the replacement of educational infrastructure, the provision of equipment, and the maintenance of nine (9) public schools located in the districts of San Martín de Porres (4) and Comas (5).

For more information about the Project, click [HERE](#).

REINFORCEMENT OF INFRASTRUCTURE, EQUIPMENT, AND MAINTENANCE OF SCHOOLS IN CUSCO

Investment Amount (excluding VAT): USD 59.00 million
Modality: Co-financed Private Initiative

The project involves the replacement of educational infrastructure, the provision of equipment, and the maintenance of three (3) public schools located in the districts of Cusco, Wanchaq, and San Jerónimo.

For more information about the Project, click [HERE](#).

Capital Markets

MODERNIZATION OF THE REGIONAL PUBLIC ELECTRICITY SERVICE COMPANY ELECTRO NOROESTE S.A.

Investment Amount (excluding VAT): To be determined
Modality: Self-financed Private Initiative

The project involves acquiring, through a newly created special purpose vehicle (SPV), the right to subscribe for new shares of ELECTRO NOROESTE S.A. (ENOSA) representing at least 51% of its share capital. To this end, FONAFE assigns its subscription rights in favor of the SPV, allowing it to subscribe for at least 217,972,175 new Class E shares at a price of PEN 1.536893 per share, consisting of a par value of PEN 1.00 and a share premium of PEN 0.536893.

For more information about the Project, click [HERE](#).

SALE OF SHARES OF AGROINDUSTRIAL CAYALTÍ S.A.A. (REMAINING STAKE)

Investment Amount (excluding VAT): To be determined
Modality: Self-financed State Initiative

The project consists of the sale of the remaining shares of Agroindustrial Cayaltí S.A.A., totaling 4,155,559 ordinary shares, which currently represent only 1.74% of the company's share capital, following the capital increases registered on December 24, 2015, and March 29, 2017. CARTISA Securities Brokerage (SAB CARTISA), contracted by PROINVERSIÓN, delivered its Transaction Structure Report for the sale of shares on October 6, 2018. Observations were identified that were not addressed by the brokerage firm; therefore, the corresponding service order was cancelled.

For more information about the Project, click [HERE](#).

Irrigation and Land

AUCTION OF AGRICULTURAL LAND – MAJES–SIGUAS

Investment Amount (excluding VAT): USD 430.00 million

Modality: Self-financed State Initiative

The objective of this project is the auction of agricultural-use land under the Majes–Sigüas Project, which is currently pending the completion of the technical file for the second stage of the Majes–Sigüas Project. This technical file is expected to include: i) optimization of the works; ii) technological changes in response to new circumstances; iii) definition of the new configuration of the lots within the distribution system; and iv) the scope of the concessionaire's works. This information will serve as a reference for the land auction process.

Electricity

GROUP 1: MIGUEL GRAU–PARIÑAS, FELAM, PALIÁN, AND MUYURINA–MOLLEPATA

Investment Amount (excluding VAT): USD 252.00 million

Modality: Self-financed State Initiative

Group 1 brings together four strategic electricity transmission projects that will strengthen system reliability, expand the capacity for renewable energy evacuation, and improve electricity supply in key regions of the country. With an estimated investment of over USD 230 million, these projects—Miguel Grau–Pariñas, Felam, Palián–Muyurina, and Mollepata—will benefit the regions of Piura, Lambayeque, Junín, and Ayacucho, ensuring a more robust and efficient electricity system that supports Peru's energy and economic development.

For more information about the Project, click [HERE](#).

GROUP 2: TINTAYA–SAN GABÁN, SAN GABÁN–PUERTO MALDONADO, COLECTORA, AND SAN ROMÁN

Investment Amount (excluding VAT): USD 444.00 million

Modality: Self-financed State Initiative

Group 2 consists of four electricity transmission projects aimed at strengthening system reliability, expanding interconnection capacity, and ensuring power supply in strategic regions of southern Peru. With an investment exceeding USD 425 million, the Tintaya–San Gabán, San Gabán–Puerto Maldonado, Colectora, and San Román projects will directly benefit the regions of Cusco, Puno, Madre de Dios, Ica, and Lima, promoting a safer, more efficient electricity system prepared to support Peru's growing energy demand.

For more information about the Project, click [HERE](#).

GROUP 3: NUEVA VIRÚ–TRUJILLO SUR–MOCHE, MIGUEL GRAU–SULLANA, MIGUEL GRAU–CHULUCANAS, AND ANTUQUITO

Investment Amount (excluding VAT): USD 137.00 million

Modality: Self-financed State Initiative

Group 3 brings together five electricity transmission projects designed to strengthen power supply and improve system reliability in strategic areas of northern and central Peru. With an estimated investment of over USD 135 million, the Nueva Virú–Trujillo Sur, Moche, Miguel Grau–Sullana, Miguel Grau–Chulucanas, and Antuquito projects will benefit the regions of La Libertad, Piura, Lima, and Junín, ensuring a more stable, modern, and resilient electricity service capable of supporting Peru's urban and industrial growth.

To be defined

Estimated Award (tentative):
I Quarter 2026

Estimated Award (tentative):
II Quarter 2026

Estimated Award (tentative):
III Quarter 2026

GROUP 4: BELAUNDE TERRY, CAMPAS–YURINAKI, SHIPIBO–MANANTAY, VIÑEDOS, AND LOS HÉROES–GARITA

Investment Amount (excluding VAT): USD 122.00 million

Modality: Self-financed State Initiative

Group 4 brings together five electricity transmission projects aimed at strengthening system reliability, expanding power supply capacity, and addressing constraints in key areas of eastern, central, and southern Peru. With an investment exceeding USD 120 million, the Belaunde Terry, Campas–Yurinaki, Shipibo–Manantay, Viñedos, and Los Héroes–Garita projects will benefit the regions of San Martín, Junín, Ucayali, Ica, and Tacna, consolidating a more efficient and secure electricity system that supports regional and national development.
